

**The most energy-efficient,
high-pressure coolant pump
with ultimate controllability
and lowest cost of ownership**

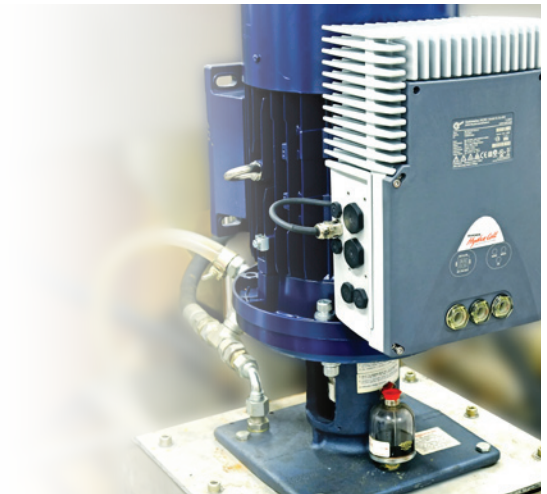

Hydra-Cell® seal-less high-pressure coolant pumps with intelligent pump control (patent pending)

- Increase productivity
- Improve cutting performance
- Minimal maintenance
- 10+ year's operating life

Simple “**plug and play**” solution and trouble-free operation:

- Pump
- Motor and integrated controller
- Compatible with CNC communication protocols
- No external sensors

Exact coolant delivery as required by the process and required pressure, controlled by your CNC machine.
